

IMPARTIALITY ON POLICY

At QSI we recognize the importance of impartiality in the conduct of our certification activities and as such we have established, promote and guide ourselves by the following principles:

- The means used by QSI to obtain financial support under no circumstances compromise the impartiality, integrity and honesty of our activities.
- Our auditing and certification services are accessible to all applicants.
- We do not offer consulting or internal audit services based on the standard for a management system of an organization that we have certified
- We do not certify the certification activities of other certification bodies
- We ensure that our personnel is free from external and internal pressures that may influence the results of the audits carried out.
- We define actions to respond to sources of threat to the impartiality of the certification process.

CELSO ALVARADO

President
